LONDON, February 6.—Parliament has re-assembled. The Queen's speech states that England is at peace with all the great powers. She will co-operate for the suppression of the slave trade on the East coast of Africa. Friendly negotiations are progressing with Russia. Schouvaloff assures her Majesty of the friendship of the Czar for England. Thiers will arbitrate between England and Portugal relative to the possessions on the South coast of Africa. It is considered proper to hasten the payment of the Alabama claims award.

The schooner James Bayley was wrecked on the Anglesa coast; eight lost.

Bombay and Madras advices, received here, state that the Indian military circles condemn the idea of a neutral zone, mooted some time ago during negotiations between Russia and Britain, regarding the limits to be observed by the former in its Khivan expedition.

PARIS, February 6.—Trouble arises from the negotiation of the Memphis and El Paso bonds in European markets.

PARIS, February 6.—The *Courier*, of Bayonne, says no substantial advantage has been gained by the Spanish forces over the insurgents in the Northern provinces.

American Matters.

SAN FRANCISCO, February 5.—Captain Miller, Company C, Fourth United States Artillery, arrived at Jacksonville, Oregon, to-day, en route for the Modoc lava beds. Much indignation is expressed among the people of that city at the proposition for a treaty with the Indians. Government supplies are going forward rapidly, notwithstanding the bad condition of the roads. Two companies of Oregon volunteers have been mustered out of the service. A despatch from Yreka states that the proposition to send a peace commissioner to the Modocs meets almost universal condemnation in that part of the country.

SPRINGFIELD, MASS., February 6.—The block occupied by the Merchants' Union Express and Massachusetts Mutual Life Insurance Company was burned to-day. The *Republican* printing building narrowly escaped. Loss about \$75,000.

HARPER'S FERRY, February 6.—7 A. M. The Potomac has risen five feet. The ice is running heavy.

NEW YORK, February 6.—Dr. Starke, Vicar-General of the Diocese of New York, is ill. His death is apprehended. A proposition is pending to reduce Brooklyn and New York to one municipality.

HALIFAX, February 6.—The French steamer Washington, nineteen days out, has arrived.

TRUSVILLE, PA., February 6.—A torpedo, which Andrew Daley was secretly filling, exploded, killing him, his wife and child, and blowing his house to atoms.

BUFFALO, February 6.—John Gaffney, who is to be executed to-morrow, showed signs of insanity yesterday, when priests visited him. He became violently enraged and broke the crucifix in pieces. A council of physicians was held last evening on the case, but no definite conclusion was reached. They advised the sheriff, Cleveland, to telegraph Governor Dix, advising two weeks' stay of proceedings. The sheriff did so, and Governor Dix replied this morning, refusing to grant the respite. Gaffney slept a little this morning and was somewhat calmer. The sheriff will summon a grand jury, before whom the testimony of physicians will be taken. Should the jury fail to render a verdict by to-morrow between 10 A. M. and 4 P. M., Gaffney certainly will be hanged.

OSHKOSH, Wis., February 6.—Rudd & Holden's carriage factory was burned yesterday. Loss \$10,000; partly insured.

CHICAGO, February 6.—A special from Topeka, Kansas, says: "In the Senate, yesterday, York said he would testify before the investigating committee and tell all that Pomeroy divulged, but would not make specific charges against members on Pomeroy's simple statement that he bought them. He will be examined to-day."

WASHINGTON, February 6.—The bill which passed the House of Representatives, yesterday, giving to producers of tobacco the right to sell direct to consumers, meets the general disapproval of all the manufacturers of the country, as well as the Bureau of Internal Revenue, which this morning addressed the following letter to the members of the Senate Finance Committee:

"The final passage of the bill in regard to selling leaf tobacco direct to consumers, which passed the House yesterday, will, in the respectful judgment of this office, prove very disastrous to the revenue from tobacco, and is most earnestly deprecated by the whole body of manufacturers of tobacco throughout the country. I have addressed the Chairman of your Committee to-day, asking a hearing for this office and the manufacturers of the country, before the Senate is called to consider it. We estimate that the revenue would be reduced \$3,000,000 per annum by the proposed bill. Very respectfully,

J. W. DOUGLASS, Commissioner."

The funded loan subscription in the United States and Europe, to-day, have been so heavy that the Secretary of the Treasury, in order to stop interest, has issued the call for \$100,000,000 of fifty-two bonds of 1862, in advance of the closing of the bonds on Friday evening. Additional calls will be issued to follow shortly, the Secretary having declined to call at one time more than \$100,000,000, because of the clerical labor involved in preparing, receiving and delivering the bonds.

In the House, Young's bill, with the Senate amendments, appropriating \$110,000 for public buildings at Atlanta, passed, and goes to the President. The bill relieving R. M. T. Hunter, of Virginia, passed. The Conference Committee on the amendments to the bank-

rupt law, agreeing to the Senate bill, with a few verbal amendments, it was adopted. The conference report upon the war ships was adopted. It provides for the building of eight ships, the cost not to exceed \$1,200,000. C. C. Bowen, contestant of DeLarge, from South Carolina, gets \$1,500, \$30,000 was appropriated for investigation into the elections of Arkansas, Louisiana and Kansas. The bill bridging the Mississippi River at Memphis was re-committed. The post office appropriation was resumed. The amendment extending the carrier system to cities of 20,000 inhabitants was adopted.

In the Senate, the report of the Conference Committee on amendments to the bankrupt bill to relieve the Boston fire insurance companies passed, and goes to the President.

The hundred and fifty or so witnesses and politicians here from Louisiana in attendance upon the Committee on Elections and Privileges are well. All are hopeful, and most of them full of spirits.

Eli F. Jennings, of Atlanta, and Albert M. Barney, recently Collector of Customs at Brownsville, Texas, have been appointed special Treasury Agents.

The campaign against Capt. Jack, except for defence, has been ordered suspended until the Commissioners recently appointed arrive.

Probabilities.—For the Gulf States, Westerly and North-westerly winds, and clear and clearing weather. For the South Atlantic States, winds shifting to Westerly and Northerly, with clearing weather. For the Middle States, South-easterly and South-westerly winds and partly cloudy weather, except cloudy weather and light rain from Virginia to New Jersey.

NEW YORK, February 6.—The recovery of ex-Mayor Kadifisch is hopeless. Simmons, who killed Duryea, is still at Bellevue Hospital, closely guarded. He will be taken to the Tombs to-night, if well enough. The District Attorney has taken measures to prevent Simmons' release on bail.

Vicar General Starke is dead.

At a meeting of the Chamber of Commerce, this afternoon, a resolution acknowledging the success to science by the late Commodore Maury and expressive of sympathy with his widow, was opposed by Mr. Blunt, on the ground that Captain Maury was a traitor. Mr. Opdyke remarked that Captain Maury was a Southerner, and if Mr. Blunt had been one he might have done the same. Blunt energetically responded he never would. The resolution passed, Mr. Blunt dissenting.

TREATMENT OF MENINGITIS.—Being in daily receipt of letters from this and adjoining States, requesting a statement of my treatment in the disease known as "cerebro-spinal meningitis," not having the time to devote to answering these communications, I have thought proper to give a synoptical statement of my treatment through the columns of the secular press, thereby enabling the profession to employ the treatment during the present epidemic in this and adjoining States, which I would not be able to communicate through the medical press in time for the present season. The following treatment should not be employed by any one but a skillful physician, as to such this communication is addressed:

The following treatment which has been employed by me since the winter of 1862 and 1863, with uniform success in all cases where the treatment has been instituted within twenty-four hours after the development of the prominent symptoms: In the first place discard all ideas of this disease being an inflammatory affection of the brain and spinal cord. Saturate a flannel, folded several times, with spirits of turpentine. Apply this along the whole course of the spine, pass over this, after the ordinary mode of ironing, a common sad or smoothing iron well heated. Continue this for ten or fifteen minutes, until you have well stimulated the spine. In the meantime, give quinine in heroic doses, to be repeated every two or three hours, until all symptoms are overcome. Follow each dose of quinine with a heroic dose of bromide of potassium, combined in solution with an ordinary dose of solid extract Hyoscyamus. The object of the bromide is to control reflex action, and the doses should be regulated according to the head and spinal symptoms, as this is dependent on electro-monic changes in the periphery of the nerves. From this the action, or the *modus operandi* of the quinine and bromide will be readily understood by the intelligent physician. Under no circumstances use a fly-blister or opiates in the outset of this disease. Avoid all cold applications to head and spine. When constipation exists, which is generally the case, use large doses of calomel every three hours until the bowels act freely. Physicians can rely on this treatment when instituted in time.

P. S.—Other papers please copy. Persons reading this will show it to their family physician.

THE AIR LINE.—J. O. Hadnot, Esq., of the Air Line Railroad office, who has been on official business to Richmond, Va., has returned. From him we learn that the track will be laid over Paeolet bridge on Friday next, which will give better access to the trestle over Big Thicket, located between the former point and Charlotte. Upon the completion of the work at these places, the cars will run to South Tyger, the only important construction between Spartanburg and Greenville. Mr. Hadnot is confident that the cars will be running through from Charlotte to Greenville by the 15th March, with the exception of South Tyger, as the contractors are prepared to get through by that time, no matter how the weather may be. The bridge over Saluda River, on the West side of Greenville, has been completed, and construction trains now run to George's Creek, in Pickens County, and track-laying is going rapidly forward.

POISONED.—We regret to announce that Mr. Joseph Majors was seriously poisoned on Monday last, by taking a drink of cyanide potash, which he mistook for Hostetter's bitters. He was in the jewelry shop of Mr. J. A. Daniels, when the latter offered him a drink of the celebrated bitters above mentioned, which was on the mantel-piece, by the side of which was also cyanide potash, in the same kind of bottle. Before discovering the mistake, he drank about eight and a half grains. He hurried to the drug store of Benson & Sharpe immediately thereafter, but before an antidote could be administered, fell upon the floor in an entirely unconscious state. After several attempts, a small amount of the antidote was gotten down him, when he showed some signs of improvement. We are glad to say that he is rapidly recovering, and his friends entertain the hope that he will soon be entirely well.

JAIL DELIVERY.—On Saturday night last, two negroes escaped from the jail of this County, and on Tuesday night, three more. They were all indicted for, or had been convicted of, larceny. Their names are Joe Knox, Ab. Bailey, Jack Wallace, Lum Wallace and Steve McLelland. Ab. Bailey, who was among the number which made their escape Tuesday night, was shot in the leg by the guard stationed at the jail, and recaptured without difficulty. The others have not been heard from.

[Charlotte Observer.]

It has been decided, so we are informed, to locate the workshops of the Air-Line Railroad at Greenville. This will greatly benefit that place. Already lands have gone up. A tract of land adjoining the city, and through which the railroad runs, sold five years ago for \$30,000; less than half of the tract sold last week for that amount. Generally landed property is rising, and on Main street is worth \$100 per foot. The prospects of the city are said to be very bright. The railroad to Abbeville is also under consideration.

A Haytien insurrection has just been suppressed and five ringleaders executed.

STATE LEGISLATURE.

THURSDAY, FEBRUARY 6, 1873.

SENATE.

The Senate met at 12 M.

Mr. Corwin presented the claim of H. M. Johnson, for services in attending the Insurance Convention in New York. The Committee on Finance, Roads, Bridges and Ferries, and Mines and Mining, reported several bills.

Mr. Corwin introduced a bill to incorporate the Newberry Cotton Mill.

Mr. Jervey—Bill for the relief of certain trustees, guardians and others, being the same bill heretofore introduced in the House.

Mr. Smalls—Bill to amend the Act incorporating the Beaufort Horse Railroad Company.

Mr. Hayne—Bill to incorporate the Aiken Jockey Club.

The following were read a third time, passed and ordered to be sent to the House of Representatives: To renew the charter of the Charleston Floating Dry Dock and Marine Railway; to prevent State and County officers from holding more than one office; to provide for purchasers of lands, at sales made for non-payment of taxes, being put in the possession of the same; to provide for the administration of derelict estates; to incorporate the Darlington Agricultural and Mechanical Fair Company; to incorporate the Pee Dee Agricultural and Mechanical Association.

The Senate refused to pass the bill to make the County Auditor the Clerk of the Board of County Commissioners, by a close vote.

Mr. Hayne introduced a bill to renew the charter of the Sand Bar Ferry, across the Savannah River.

The calendar bills, on a second reading, were then proceeded with. The consideration of several claims occupied the time of the Senate for an hour.

Senator Corwin's bill to incorporate the Newberry Cotton Mills names Wallace A. Cline, William G. Mayes and others as incorporators for the "Newberry Cotton Mills," for the purpose of manufacturing, dyeing, printing, &c., woolen and cotton fabrics, and machinery for the purpose, at Newberry, the capital to be \$300,000, in shares of \$100 each; the usual corporate rights and privileges are granted, and that they may commence business as soon as \$100,000 shall have been subscribed and twenty dollars on each paid up, a certificate of such payment, signed by the secretary of the corporation, to be filed in the office of the Secretary of State; the members are made jointly and severally liable, &c., &c. The bill proposes to exempt the corporation from taxation for ten years.

HOUSE OF REPRESENTATIVES.

The House met at 12 M.

Mr. Vanderpool introduced a bill, which was referred to the Committee on the Judiciary, to amend Sections 11 and 13 of Chapter OXX of the General Statutes. The bill amends Section 11 so as to read: "Such lien shall be dissolved, unless the person desiring to avail himself thereof, within six months after he ceases to labor on, or furnish labor or material for, such building or structure, files in the office of the Clerk of the Court of Common Pleas of the County in which the same is situated a statement of a just and true account of the amount due him, with all just credits given, together with a description of the property intended to be covered by the lien, sufficiently accurate for identification, with the name of the owner of the property, if known; which certificate shall be subscribed and sworn to by one person claiming the lien, or by some one in his behalf, and shall be recorded in a book kept for the purpose by the Clerk, who shall be entitled to the same fees therefor as for recording mortgages of equal length."

Section 13 is amended so as to read, that unless a suit for enforcing the lien is commenced within one year after the person desiring to avail himself thereof ceases to labor on, or furnish labor or materials for, such building or structure, the lien shall be dissolved.

There were amendments inserting the names of certain physicians of the several Counties in the bill to form a pharmaceutical association, which passed to its third reading.

The following bills and resolutions were introduced and referred:

By Mr. Ramsey—Bill to authorize the County Commissioners of Sumter and Darlington Counties to build a bridge across Lynch's Creek.

By Mr. Hurley—Joint resolution to allow suits to be brought to ascertain the merits of the claims of Wm. Aiken and others to be refunded the alleged overpayment of direct taxes to the United States.

By Mr. Cochran—Bill to repeal so much of an Act to provide for the appointment of an inspector of phosphates as relates to the inspectorship of phosphates manufactured by individuals or companies.

By Mr. Middleton—Bill to incorporate the Hunters' Chapel Baptist Church, in Barnwell County.

By Mr. N. T. Spencer—Bill to incorporate the Mutual Aid Association, of Charleston.

By Mr. Vanderpool—Bill to incorporate the Charleston Memorial of Freedom Publishing Company.

By Mr. Lilly—Resolution, which was laid on the table, that the House meet at 7 o'clock this evening, for the purpose of considering incorporation bills.

Mr. Jones introduced a bill to incorporate the Aiken Jockey Club; also, a resolution, which was tabled, that the House meet at 10 A. M. and adjourn at 2 P. M., and at 5 P. M. and adjourn at pleasure.

Mr. Crows—Bill to make drunkenness in certain public officers an indictable offence.

Mr. Metz presented the petition of citizens of Lexington County against the chartering of a certain public road.

Mr. Curtis—Bill to prohibit convicts from being hired out to private parties.

Mr. Gilmore—Bill to require the School Commissioners to have public examinations of the public schools every three months.

Mr. Nix—Resolution to allow E. W. Bradley, of Orangeburg County, to redeem certain forfeited lands; also, similar resolution for M. Dolin, of the same County.

Mr. Cannon—Bill to explain the Act allowing aliens to hold property; also, a resolution, which was adopted, that when the House adjourns, it stands adjourned until 11 A. M., to-morrow.

The Senate report on the claim of Joseph Taylor was concurred in.

THE PRESIDENT AND CABINET TO SWING AROUND THE SOUTHERN CIRCLE.—The President to-day assured a delegation of Georgians that after the business of Congress was over, he should, in company with the members of his Cabinet, make an extended Southern tour, proceeding to New Orleans via Richmond, Raleigh, Columbia, Charleston, Savannah, Montgomery and Mobile. From New Orleans he would probably proceed North as far as Memphis, cross over to Chattanooga, and was undecided as yet whether he would return to Washington via Knoxville or Nashville and Louisville. This swinging around the Southern circle is intended as an earnest of the good will to be inaugurated with his second term, and a desire to conciliate the South by friendly deeds. In regard to choosing a member of the Cabinet from the Southern States, he did not leave an unpleasant impression on the minds of his visitors, but declined to give any positive assurance. Pool, of North Carolina, and Sawyer, of South Carolina, are the ambitious candidates.

[Wash. Cor. New York Herald.]

The Wharton-Van Ness case and its predecessor of the same name, both as to the time each occupied and the skill displayed in the prosecution and defence, is hardly equalled in the history of criminal law in this country. The first case of the State against Mrs. Wharton, for the alleged murder of Gen. Ketchum, occupied the close attention of the court, the jury and the counsel for forty days. Its investigation developed a subtlety of chemical science that will hereafter rank as a precedent in all similar cases—not a precedent calculated to guide future investigations to accurate conclusions, but rather to throw a doubt on scientific accuracy, and confuse the conclusions of courts and juries. The present case is marked by the radical difference in conclusions from the same facts of scientific men. The truth is, there is more humber in the so-called tests of chemical science and in the glorification of the "common law right of a man to trial by a jury of his peers," than is commonly suspected.

COMMOTION IN THE REPUBLICAN CAMP.

During the last few days, there has evidently been no little trouble and commotion among certain prominent Republicans at this place. And ever and anon we hear ugly—yes, damnable—reports, based on good authority, concerning the fraudulent issue of certain checks upon the County Treasurer, and the most vehement threats from leading Republicans of an uncompromising prosecution of the guilty party. But, in the absence of one of the accused, who has promised to make an early and ample showing and vindication of his acts in the premises, we forbear further comment for the present. Yet, nevertheless, "if the court understand herself, and she think she do," we would intimate that some rich developments may be expected in a week or two. Wait and watch—but don't condemn without a hearing.

[Edgefield Advertiser.]

The Abbeville Press and Banner says County Treasurer DuPre has written 6,109 tax receipts; collected \$100,000; sent \$65,000 to the State Treasurer; paid \$11,000 on new court house; taken in \$16,000 in County claims; and paid \$5,000 on school claims. There is \$36,000 yet on the books, which will be greatly reduced by abatements for errors. The books were turned over Monday evening, 31, to the County Auditor to affix the penalty.

Southern Medicines.

FOR THE SOUTHERN PEOPLE. Medicines from the South, prepared at the South, from indigenous roots of the South, for all diseases incident to the South.

Prepared by HEINITSH, Chemist.

A great achievement. Twenty years ago, to have said that such a Drug Establishment as HEINITSH'S, for the South, would be a success would have been regarded as chimerical. But such is the fact; success ever attends well-pointed means, and upon this base we propose to go forth and offer to the afflicted the only remedial worth trying.

Heinitsh's QUEEN'S DELIGHT, for the Blood.

Heinitsh's BLOOD AND LIVER PILLS, for the Liver.

Heinitsh's KINA CHILL CURE, for the Chills.
